# JEDI

## JUNIOR EXECUTIVE DEVELOPMENT INITIATIVE

In Star Wars tradition, a JEDI was expected to be rational, patient, and benevolent. JEDI behavior was structured to uphold self-discipline, responsibility, and public service. JEDI rendered aid to support and defend the weak with compassion. In addition, a JEDI was expected to understand the dark and light in all things, learning to see accurately, opening their eyes to what was not evident and exercising caution, even in trivial matters.

**Many qualities of a credit union leader are mirrored in the JEDI tradition.**

The purpose of the JEDI program is to engage young credit union professionals within the credit union movement to become the leaders of tomorrow.
