Great news for credit unions on the consolidated envelope program

For many years, HCU Services Corporation has coordinated the official credit union consolidated envelope program. This allows credit unions to purchase preprinted envelopes in bulk at great savings.

We are pleased to announce League business partner American Solutions for Business will now manage this program. Our previous service provider's updated pricing made continuing this program with them financially unfeasible. American Solutions for Business has agreed to provide the same great envelope products at the same great price our credit unions have enjoyed.

Credit union benefits from the consolidated envelope program:

- Standardized envelope styles to manage your cost, reduce storage/inventory challenges, and ability to promote the credit union difference.
- Working directly with experienced representatives with the credit union to fill your envelope needs;

- You are billed only upon shipment of envelopes. This will allow you to manage operating expense and inventory requirements; and
- Satisfaction Guaranteed or your order is reprinted.

To participate, please contact Karen Mendes of **American Solutions for Business** to receive your next envelope order for the 2024-2025 program. Contact information listed below:

Millennials and Gen Z collectively wield a staggering \$350 Billion in purchasing and spending power in the U.S. alone. Tapping into this potential is a game-changer and can lead to significant boosts in account balances and non-interest income.

In the modern age of banking, credit unions face stiff competition and must embrace digital capabilities to remain competitive in their market. This need is especially pressing when trying to attract tech-savvy consumers and the younger generation to become members.

Recent economic and market data tells us 2024 will bring slow but steady economic growth and possible interest rate reductions. The Fed will continue to battle inflation with a balanced approach to interest rates in hopes of staving off a recession and bringing inflation rates to an acceptable standard.
